

REAL ESTATE ESSENTIALS

SUMMER 2017 CLASS

As the real estate climate in Detroit continues to change, it is important for neighborhood residents to have the knowledge, skills, connections, and resources to actively play a part in the future of their neighborhoods.

This five session course will walk you through the basics of acquisition, financing, and project management for home and commercial rehabilitation projects to encourage resident led neighborhood stabilization and revitalization efforts. All sessions will be held at the University of Michigan Detroit Center.
